**Gifu (Takayama / Shirakawago)**

Takayama is known as a little Kyoto, which has a very quaint atmosphere. Shirakawago is the world heritage site that is surrounded by mountains and its unique and traditional life-style.

**Yamanashi (Kogen / Mt. Fuji)**

Yamanashi is, off course, famous for Mt. Fuji, one of the UNESCO world heritage sites and the representative of Japan. Besides that, there are many beautiful mountain ranges especially in inland areas. There is a highest JR train line between Nagano and Yamanashi. Let's enjoy the highest train ride and discover its scenic view!

\*This is only image. No snow covered on Mt. Fuji in summer.

Kamikochi is closed in winter by snow and only accessible and shows beautiful scenery in warm season when the snow melted. Matsumoto Castle has an elegant structure with black and white, designated as one of five castles of National Treasure.

**Nagano (Kamikochi / Mastumoto)**

Mt.Fuji World Heritage Center was established after its designation of World Heritage to maintain our important heritage. Also, let's learn about tea culture at newly opened museum.

**Shizuka(Mt.Fuji Center/Tea Museum)**
