

Technical Visit in Japan

We arrange educational facilities in various fields. We will suggest a suitable facility for each client's request.

<Ageing facilities>

Facilities operates with innovative models and creates more choices and fun for the elderly residents, not just any nursing home and daycare centers.

<Medical checkup facilities>

Experience medical checkup by using advanced care that enables early detection and early stage treatment.

<Disaster prevention centers>

Experience characteristic natural disasters in Japan : tsunami evacuation, earthquake, rainstorm and smoke maze simulation.

Further examples: public libraries, power plants, garbage disposal sites and etc.
